

DENSO Manufacturing Michigan Inc.

Production Control Supplier Manual

Section ORDERING	Title DMMI NEW PRODUCT INTRODUCTION	Control No. ORD-002
Date Issued : 2-23-99		Date Revised : 8-8-17

Purpose:

To inform the supplier of DENSO Manufacturing Michigan. Inc. (DMMI) requirements for New Product Introduction (NPI) components and A-parts

Responsibility:

The DMMI NPI group is responsible for providing the tools to suppliers to ensure smooth New product component / A-part start up.

DEFINITION:

- NPI components and A-parts are those introduced through the New Product Introduction process for new vehicle programs and model changeovers. NPI components are transferred to DMMI Mass Planning Team.

KEY POINTS:

- NPI orders are issued by Delivery Order Number (DO#) through the DWOS system or Purchase order (PO).
- NPI manifest will be identified with a dock code of 40 or 41.
- All NPI shipments must have Bartag(s) and *Pink NPI labels (reference labeling section).
- NPI orders **MUST NOT BE REFERRED TO AS SAMPLES.**
Note: Samples may be requested by Purchasing and/or Quality for PPAP and/or testing. These parts will not have orders issued by DO#.

ORDERING:

- All NPI components and A-parts are forecasted and ordered through the DWOS ordering System, unless ordered by PO. NPI parts are included in the weekly material release and and DO's along with the mass production parts.
- See the sections for the Material Release, Manifest, and Supplement Manifest in this manual.

DENSO Manufacturing Michigan Inc.

Production Control Supplier Manual

Section NPI	Title DMMI Supplier Ordering Specifications	Control No. ORD-002
Date Issued : 2-23-99		Date Revised : 8-8-17

The following exceptions to those sections occur when discussing NPI parts:

1. All NPI components and A-parts are planned by the NPI Specialist NOT your regular DMMI Mass Planner.
2. The lot size defaults to 1 per container until packaging specs are approved. The supplier should refer to the NPI Packaging requirement in this manual for packaging of NPI components and A-parts
3. Contact your NPI specialist with any questions, change requests, back order information, etc.

LABELING:

See labeling section (LAB-002) for New Product Labeling requirements.
